

Componibili

Anna Castelli Ferrieri 1969

Componibili elements were designed to meet the many uses and lifestyles of any room in the home: in the bathroom, bedroom, kitchen, living room or hallway. The design feature that brings the Componibili modular system to life is the simple and robust vertical overlapping of the single pieces, which, by way of a simple joint, form practical movable containers. Offered in round and square shapes, the Componibili modules can rest on small castors. Flexible, functional and practical, Componibili modules have been in production for more than forty years and have received much recognition for their pre-eminent and innovative design (even displayed at the Museum of Modern Art in New York, and at the Centre George Pompidou in Paris). The best-known 32-cm two- or three-drawer compositions are available in solid red, white, black and matte silver. Plus, there are new metallic gold, silver and copper finishes, too.
